

8.1.10 The College has adopted methods to define and implement Dental graduate attributes with a system of evaluation of attainment of such attributes

Dental graduate attributes as described in the college website:

Dental graduate training is done to make them competent in –

- Educate and motivate the public in oral health maintenance
- Diagnose maxillofacial health care problems
- Utilize the recent diagnostic aids and interpret data which will aid inaccurate diagnosis
- Etiology of various oral pathologies
- Preventive Dentistry
- Interceptive procedures to reduce the severity of oral healthcare
- Knowledge and understanding of the subjects

Evaluation-

- Evaluation of the attributes is done time to time
- Supervision of the clinical procedures is done on daily bases
- Chair side viva and case presentations
- Monthly tests
- Quarterly examinations
- University examination for evaluation of theoretical as well as practical/clinical knowledge.
