Amount of blood collected 84 units

3. Vaccination Drive

Date	Vaccination
1-04-2021	11
8-04-2021	11
26-04-2021	10
27-04-2021	20
28-04-2021	11

Every year, March 8 is celebrated as International Women's Day. This year, the goal is to create a gender-equal world. It is about **celebrating a woman's success and raising awareness against bias**. So we all should choose to 'challenge' to bring the change.

The image shows a screenshot of a presentation slide. On the left side, there is a vertical red bar with a white 'X' icon at the top and the letters 'JG' in white at the bottom. The main content area is white and contains the following text:

Legal perspective of ragging

- **Honorable Supreme court of India defines ragging as under-**
 - “Ragging is any disorderly conduct, whether by words spoken or written, or by an act which has the effect of teasing, treating or handling with rudeness any student, indulging in rowdy or undisciplined activities which cause or are likely to cause annoyance, hardship or psychological harm or to raise fear or apprehension thereof in a **fresher or a junior student** and which has the effect of causing or generating a sense of shame or embarrassment so as to adversely affect the psyche of a **fresher or a junior student**”

No Tobacco Day or Anti-Tobacco Day is marked on May 31. The day as the name suggests is meant to **raise awareness about the adverse effects of smoking**. The day created by World Health Organisation (WHO) in 1987, aims to sensitise people about the hazardous diseases that can be caused due to smoking.

Planted trees **help our biodiversity, ensure the supply of oxygen for the next generations**, and provide us with various resources. Without trees, the existence of human life, as well as other species on earth, is impossible. So, we should plant more and more trees.

One blood donation provides different blood components that can help up to three different people. **Blood cannot be manufactured**. Despite medical and technological advances, blood cannot be made, so donations are the only way we can give blood to those who need it. Blood is needed every two seconds.
